OUR COMPANY

The customs sector is constantly evolving. Anticipating the future is our challenge.

Andreetto & Zanon, based in Verona, offers solutions and consultancy in the field of international **import/export transportation**, with particular regard to the fine arts sector and customs operations, providing a completely personalised service and a dynamic, flexible approach to **meet any type of request**.

We are a family company, in which the human factor and technological innovation go hand-in-hand. A direct line of communication is constantly kept open between Andreetto & Zanon and its clients. Personal contact still makes all

the difference, including when dealing with the public administration: we become a single contact point for **all requirements in customs matters** and companies are finally free to concentrate on their business.

Our experience in the sector over time has enabled us to develop of solid network of international contacts, in order to give companies the chance to break through the formalities with the help of a team of specialised skilled professionals, able to provide a rapid, precise service.

What may look like obstacles become new opportunities for us.

OUR CUSTOMS SERVICES

Andreetto & Zanon offers tailor-made consultancy in the customs sector. We adapt the bureaucratic machine to your way of operating through our customs assistance service.

Andreetto & Zanon was founded in 1981 with the aim of the founder partners to make available to clients the professionalism acquired over many years operating in the customs services sector. As a further guarantee of the quality of the service offered, the current partners founded the [Centro di Assistenza Doganale \(CAD\) Interporto Europa Srl](#) in 2005, a company that provides support to companies who trade with foreign countries by making make customs operations for imported and exported goods more streamlined and effortless. CADs are companies authorised by the Finance Ministry, the shareholders of which must be customs agents/brokers listed on the professional register.

ANDREETTO & ZANON

We make available our decades of experience and professionalism in order to disentangle the increasingly complex national and European Union regulations that companies must abide by in the field of the customs classification of goods, declarations of free export and import and health certifications.

We also provide assistance in obtaining customs authorisation of **authorised exporters and REX registered exporters in the field of preferential origin** and we also organise courses to train the company's collaborators so that they can analyse corporate procedures in the right way and correctly declare the origin of the goods.

We look carefully at your needs and offer the option of integrating with your IT systems to optimise the flows and handle the schedules in the best way possible.

CUSTOMS TRAINING

“The partners of Andreetto & Zanon, Michele and Franco Andreetto, are customs brokers listed on the national register of customs agents and stand ready to provide a consultancy and training course together with your company.”

For companies, developing trade with a foreign country means dealing with a constantly evolving world that can present many opportunities but also some risks, which can, however, be averted. Andreetto & Zanon is the **ideal partner** because it enables your company to concentrate on business, freeing you from the bureaucratic hassles. It is, of course, vital to fully prepare your staff when entering the import/export field. This is where Andreetto & Zanon’s customs training comes into play. Having well-prepared collaborators makes it possible for the company to react to the stresses of the market.

A business that works with a foreign country finds itself tackling and managing problems and activities in the customs area, the origin and preferential origin of the commodity, customs declarations, attestations and applications for the release of **EUR1 certificates**, customs product classification, excise duty rates and more besides. On many occasions, with the **Ex works (EXW) sale**, the intended client takes care of the customs formalities and the operator chosen by the client submits documents to the company for signing that are “required” by the customs or the client.

TRANSPORT & SHIPMENTS

We specialise in exceptional consignments and shipments of fragile goods like furniture and furnishings. We handle every stage, from pick-up and consolidation all the way through to the customs operations.

With Andreetto & Zanon, international shipments are at the service of Made in Italy.

Over time, our company, which has always specialised in the customs field, has opened up to the world of **shipments and transports**, establishing a reciprocal relationship of trust with clients that has enabled us to further develop our services in the sector of logistics and groupage and full load transportation. There is increasing demand for excellence and Italy has always been synonymous with quality products.

Andreetto & Zanon is able to ship fragile goods, such as furniture and furnishings, which demand special attention and skill. The company is structured in such a way as to offer, with its customary maximum professionalism, **groupage and full load transportation to the main destinations, in particular Russia, Ukraine, Kazakhstan and the countries of the Baltics and the Balkans.**

We also specialize in exceptional and special consignments for any type of goods, with a tailor-made service, from pick-up to consolidation, including foreign customs operations.
